Recycling flowers...Delivering hope & encouragement
FLORAL INDUSTRY WASTE
How it Works

Donated product is sourced from community floral partners.
(wholesalers, retail florists, weddings, events, grocery stores, funeral homes)

The flowers are recycled and repurposed into new, beautiful arrangements by volunteer teams.

RAF volunteers deliver bouquets and moments of kindness to people in local healthcare facilities.
(hospitals, assisted living, nursing homes, hospice)

The mission is typically fulfilled in 24 – 48 hours, reinforcing the immediacy and positive impact on the community.
Promoting Health & Wellness

Random Acts of Flowers improves the emotional health and wellbeing of individuals in healthcare facilities by delivering recycled flowers, encouragement and personal moments of kindness.

Using flowers as the vessel, our vision is to inspire and nurture a culture of care and compassion.

While Random Acts of Flowers directly serves people struggling with illness, injury or the aging process, our reach goes well beyond the recipients to impact their families, caregivers, healthcare administrators, our devoted volunteers and committed donors.
