Tobacco’s Impact On The Environment

Cigarettes and cigarette butts make up nearly 38% of all collected litter.

As many as 65% of cigarette butts are littered.

75% of smokers report disposing of cigarettes on the ground or out of a car.

In 2012, 1,465,315 pounds of toxic chemicals were released by tobacco product manufacturing facilities.

truth initiative
INSPIRING TOBACCO-FREE LIVES
Host a cigarette butt cleanup.
Support the movement to end tobacco use.
Help people quit.
Yay or Nay?
E-cigarettes come in all shapes and sizes.
E-cigarettes and the Environment
Exploding E-Cigarettes Are a Growing Danger to Public Health

Whatever their physiological effects, the most immediate threat of these nicotine-delivery devices comes from a battery problem called thermal runaway.
